

To the FCC:

I am a Christian and a supporter of Christian Radio. I believe that there are some things in life that should not be dictated over by the government and the right to listen to music that worships God is one of them.

Please reconsider the adverse legislation that you are proposing. Stations such as K-Love are listener supported and already have stressed budgets. But, the comfort and joy that they bring to many people through their ministries is vital to the sanity of our world.

Most Sincerely,

K. Knudsen
